

Dear Sirs,

Please do not allow FM translator stations to be replaced by LPFM.

I am not currently residing in a community that is in range of a K-LOVE translator station but I hope to be in the future. When I lived in a K-LOVE translator area K-LOVE was an inspiration to my family and me. K-LOVE also provided a community services through the information it provided.

I currently listen to KLOVE over the internet and replacing the translator stations with LPFM's would adversely the ability of K-LOVE to provide internet streaming.

Thanks,  
Dean L. Eiland
